...SPARKLE WITH DIDI ISLE NEW JEWELS

We love Didi Isle **Jewellery** autumn/winter 12, inspired by wild nature and the extravagant visual wildlife references from her travels around exotic places in the world, and antiques pieces discovered on her adventures. Didi's pieces are distinctive yet very wearable, and are handcrafted at her **London** studio, where her thought provoking designs are executed with highest standard solid silver and gold plated silver with semiprecious stones and impeccable attention to detail and finish.
